<b>PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:</b>					
<b>Requesting Organisation(s)</b>	HRDS		<b>Originating Jurisdiction</b>	ROI/NI	
<b>Contact name</b>	Joan-Edel Smith / Peter Cabena				
<b>Date Request Raised</b>	13/06/2011		<b>Originating Request</b>		
<b>Detail of Request</b>					
<b>Reason for Request</b>					
This change request represents the two Core Elements of the latest version of the agreed Harmonisation Baseline. The Baseline has been agreed to ensure consistent implementations over time of the joint Retail Electricity Market Message schema across the ROI and NI jurisdictions.					
<b>Proposed Solution</b>					
<p>The Core Elements are:</p> <ol style="list-style-type: none"> <li><b>Data Definitions and Codes</b> (a set of all of the agreed data items definitions and, where appropriate, their associated coded value sets and in which jurisdiction (s) they are used)</li> <li><b>Market Messages</b> (a set of common market message structures for used in both jurisdictions along with an impact assessment of the changes needed in each jurisdiction to existing messages in order to implement the baseline structures).</li> </ol> <p>The two jurisdictions will use the Core Elements to build separate jurisdiction-specific Market Message Guides and, in the case of ROI, an overall Impact document.</p> <p>These Core Elements are at Version 2 and, from a business perspective, represent all of the content of Version 1 of the Baseline plus all of the relevant updates agreed at the HWG meetings up to and including 15th June 2011.</p> <p>Physically, the Core Element files are Excel Spreadsheets and a copy of each is embedded on page 3 of this change request, along with an MCR-level summary of all change made since Version 1 of the Baseline.</p>
