<b>PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:</b>								
<b>Requesting Organisation(s)</b>	NIAUR				<b>Originating Jurisdiction</b>		NI	
<b>Contact name</b>	Malcolm Rowley							
<b>Date Request Raised</b>	02/08/2011			<b>Originating Request</b>				
<b>Detail of Request</b>								
<b>Reason for Request</b>								
<p>Many CoS registrations are failing for various reasons and when suppliers' reregister they have to wait another 14 days before the new registration can be processed. This is causing customer inconvenience and effectively reducing the number of changes the interim systems can accommodate. This DR is proposing that the interim systems are reconfigured to a 1 WD delay. Suppliers may remember the ES systems will NOT provide a 14 day delay and this DR is proposing this change is adopted earlier in the interim systems. If all the present domestic suppliers (and other suppliers who may wish to register domestic customers in the interim systems before May 2012) wish for the 14 day delay to be removed they will need to confirm in writing to NIAUR that they are able to maintain the 14 day cooling off period in their own systems where it is required by the relevant legislation and supporting codes.</p>								
<b>Proposed Solution</b>								
<p>This is a NI specific DR. Presently the interim systems are set to enforce a 14 day delay between receipt of a registration and when it can be processed. This DR proposes that the 14 day delay (in effect the suppliers' cooling off period) is changed in the market systems, for all domestic registrations, and reset at 1 day.</p>
