

Form A – IGG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0181	Add Market Participant Business Reference to 300 MM with CoLE Reads and any subsequent 300W MM withdrawing the CoLE Read.	Medium

Name of Requesting Organisation	Bord Gais
Contact name	Steve Watson
Date Request sent to RMDS	12 th March 2010

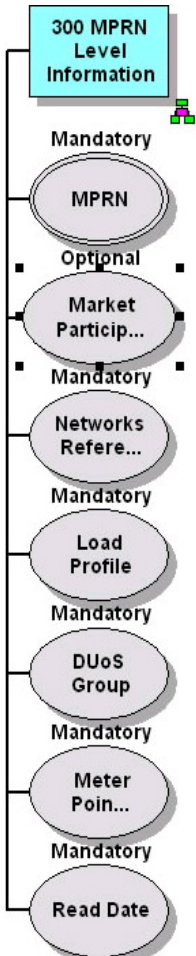

Date	Version	Reason for Change
19.08.2010	1.0	Issued to HRDS

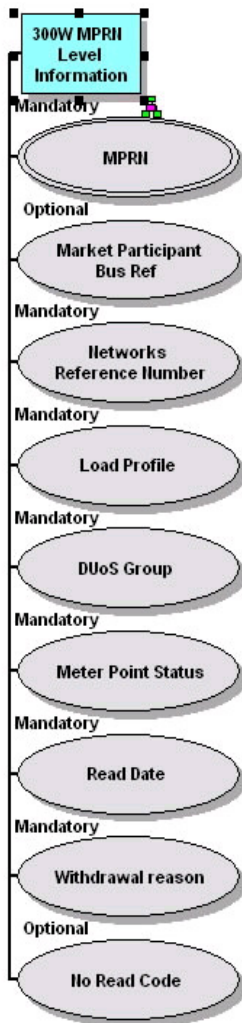

Detail of Discussion Request	
<p>The Market Participant Business Reference is provided in the Message Header of the 016 MM sent by the Supplier to request a CoLE. Currently, this field is not populated on the 300 MM which issues with the CoLE read(s). If populated, this reference would enable the Supplier to uniquely identify the original 016 (CoLE) message to which the 300 MM is the response. There is a requirement now for ESB Networks to populate this Market Participant Business Reference on the 300 MM which is sent to the Supplier with the CoLE reading(s).</p> <p>Any subsequent 300W Market Message signifying withdrawal of the CoLE reading(s) would also require to have this Market Participant Business Reference field populated.</p> <p>This field already exists in the Schema for the 300 and 300W MMs, as an optional field on the MPRN level information, in both cases. This request will therefore not necessitate a change to the Schema.</p>	
Reason for Discussion Request	
<p>With the increase in the volumes of Domestic customers changing Supplier, Market Participants are experiencing a rise in the number of issues around CoLEs. In situations where there are multiple CoLEs in a short period of time, difficulties arise in associating the correct CoLE read with the initiating CoLE 016 Market Message. This can prove to be both time-consuming and tedious. It would therefore be of major benefit to Suppliers in resolving issues around CoLE readings, to have the Market Participant Business Reference field populated on both the relevant 300 and any associated 300W Market Message, thus enabling Supplier to more readily identify the originating 016 message.</p>	
Market Design Documents impacted by Request	
<p>Market Design 8.0</p> <p>Message Specific Information 300 Market Message</p> <p>Message Specific Information 300W Market Message</p>
