PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:													
Requesting Organisation(s)		NIE				Originating Jurisdiction		NI					
Contact name		Joan-Edel Smith											
Date Request Raised		21/03/2011				Originating Request							
Detail of Request													
Reason for Request													
<p>This Discussion Request proposes removing the following fields from the NI Market Website for the Enduring Solution: Usage Type; Meter Multiplier; Certification Category; and Annual Burning Hours.</p> <p>The rationale for removing each of these fields is outlined below:</p> <p><b>Usage Type:</b> Usage Type is to be removed as this information can be derived from other fields that will be displayed on the Market Website:                      - DUoS Group                      - Meter Type (a new field, indicating whether or not a meter installed at the site is capable of operating in credit mode or prepayment mode or both modes)                      - Prepayment Indicator (a new field, indicating the current operating mode of credit or keypad at the installation).</p> <p><b>Meter Multiplier:</b> Meter Multiplier is to be removed as the inclusion of this field may cause confusion and result in Suppliers incorrectly applying this multiplier to meter reads that are to be submitted to NIE.</p> <p><b>Certification Category (Meter):</b> Certification Category (Meter) is to be removed as this field is for internal NIE use and is of no relevance to Suppliers.</p> <p><b>Annual Burning Hours:</b> Annual Burning Hours is to be removed from the Market Website at Un-metered inventory item level and instead Burn Hour Calendar is to be displayed at MPRN level for Unmetered MPRNs. This is in line with the details that are displayed for Un-metered MPRNs on the ROI Market Website.</p>													
Proposed Solution													
<p>The following fields will not be displayed on the NI Market website: Usage Type; Meter Multiplier; Certification Category; Annual Burning Hours. Usage Type will be replaced by DUoS Group, Meter Type and Prepayment Indicator. Annual Burning Hours will be replaced by Burn Hour Calendar.</p> <p>In addition, there will be no Cleansed Address Indicator displayed on the Market Website - this reflects the previously approved MCR 1009 "Removal of Cleansed Address Indicator".</p>													
Classification of Request
