				Status Date	06/04/2011		
Date	Version	Reason For Change			Version Status		
30/03/2011	v1.0	Initial version issued to HWG			Final		
<b>PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:</b>							
Requesting Organisation(s)	NIE		Originating Jurisdiction	NI			
Contact name	Joan-Edel Smith						
Date Request Raised	22/03/2011		Originating Request				
<b>Detail of Request</b>							
<b>Reason for Request</b>							
In the current design for NI, a de-energisation request from the Old Supplier for a commercial MPRN is permitted during a pending Change of Supplier. In order to harmonise CoS arrangements with those in RoI, and to remove the possibility of a de-energisation being carried out after the CoS to the New Supplier has been completed, it is proposed to remove this functionality from the Enduring Solution design. It should be noted that where a valid debt objection is received by NIE from the Old Supplier within two business days of Registration receipt, then cancellation messages will be sent by NIE after which the Old Supplier may submit an 017.							
<b>Proposed Solution</b>							
It is proposed that a de-energisation request from the Old Supplier will be rejected in the event that a CoS is in progress. The validation check will be made on receipt of the 017 market message from the Old Supplier when a CoS is in progress. The rejection reason code "CIP" will be used.							
<b>Classification of Request</b>							
Harmonisation Impacting			Harmonisation Baseline Version No.		TBD		
NI Specific	X	RoI Specific	Operational	Date of Transfer from HWG			
<b>Scope of Request</b>							
Design Documentation	Business Process	Market & MP Systems	Market Gateway (Hub)	MPCC/ EMMA	Schema	Web Forms	Extranet
