						Status Date	10/08/2011	
Date	Version	Reason For Change					Version Status	
03/08/2011	v1.0	Initial version issued to HWG					Final	
PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:								
Requesting Organisation(s)	NIE Energy				Originating Jurisdiction		NI	
Contact name	Graeme Hunter							
Date Request Raised	07/07/2011			Originating Request				
Detail of Request								
Reason for Request								
If suppliers receive the 131C when the check meter is fitted it will provide no beneficial notification as there will be no further action required until after the check meter is removed. As such, the 131C1 should come after the check meter test is complete and the meter is removed to allow suppliers to follow up on results.								
Proposed Solution								
The NIE solution is that a 131C1 will be sent to a supplier if as a result of the 260 a check meter is fitted. The solution should be that the 131C1 is sent after the check meter had been removed. There is no point in the message when the check meter is first fitted.								
Classification of Request								
Harmonisation Impacting				Harmonisation Baseline Version No.			TBD
