

DR		1088		Daily Report for CoS Reads Validation			<i>Priority</i> Fast Track	
Harmonisation Status				CLOSED - Jurisdictional Specific			CR Status	Classified
							Status Date	10/08/2011
Date	Version	Reason For Change					Version Status	
03/08/2011	v1.0	Initial version issued to HWG					Final	
PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:								
Requesting Organisation(s)	firmus energy				Originating Jurisdiction		NI	
Contact name	Siobhan Kane							
Date Request Raised	06/07/2011			Originating Request				
Detail of Request								
Reason for Request								
Incidents have occurred when this report has not been sent when reads have failed validation and as a result the supplier is not aware of the invalid reads until the registration is cancelled by receipt of the N111 market message. The customer registration process must then begin from the start again adding unnecessary time onto the switching process for the customer. This change will reassure suppliers they are receiving information on invalid reads and they can query with NIS Billing & Registration if the 203 report is not received. If the change is not made there is a greater risk that suppliers will not be informed of all instances of reads failing validation.								
Proposed Solution								
Currently Suppliers are due to receive a '203' excel report by email from NIS Billing and Registration only when CoS reads fail validation. This report advises why the reads have failed validation and gives the opportunity for suppliers to submit another valid read before the registration times out. If NIS Billing and Registration do not send a 203 report the implication is that reads have been validated. firmus energy believe suppliers would benefit from receiving this report on a daily basis, even if there have been no reads failing validation and the content is blank.								
Classification of Request								
Harmonisation Impacting				Harmonisation Baseline Version No.			TBD	
NI Specific	X	RoI Specific		Operational		Date of Transfer from HWG		
Scope of Request								
Design Documentation	Business Process	Market & MP Systems	Market Gateway (Hub)	MPCC/ EMMA	Schema	Web Forms	Extranet
