					Status Date	11/01/2012
Date	Version	Reason For Change			Version Status	
22/12/2011	v1.0	Initial version			Final	
<b>PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:</b>						
Requesting Organisation(s)	Airtricity		Originating Jurisdiction		RoI	
Contact name	Siobhan Melvin					
Date Request Raised	22/12/2011		Originating Request			
<b>Detail of Request</b>						
<b>Reason for Request</b>						
A significant number of NI domestic customers cannot switch supplier because the actual reading provided for the CoS is being validated against an estimate on the legacy NIE systems. The reads are being rejected because consumption is too high or low compared to the estimate. From information provided to the NI supplier forum it looks like almost 25% of CoS are cancelling and most of these are because of reading validation issues.						
<b>Proposed Solution</b>						
This change relates to the NI Interim process only. Request that where the last reading on the NIE legacy system is an estimated read that the CoS read is accepted without validation. Request that this be fast tracked so that it can be approved/ rejected at the 11th Jan HWG/CDA meetings.						
<b>Classification of Request</b>						
Harmonisation Impacting			Harmonisation Baseline Version No.			TBD
NI Specific	X	RoI Specific		Operational	Date of Transfer from HWG	
<b>Scope of Request</b>						
Design Documentation	Business Process	Market & MP Systems	Market Gateway (Hub)	MPCC/ EMMA	Schema	Web Forms
						Extranet
