<b>PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:</b>							
Requesting Organisation(s)	Enduring Solution Project			Originating Jurisdiction	NI		
Contact name	Ann Ferguson						
Date Request Raised	04/01/2012		Originating Request	-			
<b>Detail of Request</b>							
<b>Reason for Request</b>							
This request proposes that a 102R is always sent in the event that a 010 is received in NIE for an MPRN that is not valid. This is to allow for the scenario where a registration request (either CoS registration, or new connection registration) is submitted for an MPRN that does not exist. As NIE will not know if the intention was for a CoS or new connection registration SAP will always generate a 102R with rejection reason IMP in response to the inbound 010. This change will align the NIE systems response with the proposed ROI response in these circumstances.							
<b>Proposed Solution</b>							
A 102R is always issued when a 010 message is sent for an invalid MPRN. A 101R with rejection reason IMP will never be sent.
