

MIG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0008	<i>Sending Different data on the 105 message to old and new supplier</i>	<i>MED</i>

Name of Requesting Organisation	<i>ESB MOIP</i>
Contact name	<i>Theresa O Neill</i>
Date Request sent to ESB MOIP	<i>N/A</i>

Detail of Discussion Request	
<p>This DR proposes to make fields on the 105 Change of Supplier Confirmation message optional so that the proposed existing version would go to the New Supplier , but that only the following fields are populated in the 105 message to the Old Supplier:</p> <ul style="list-style-type: none"> • MPRN • Meter Point Address • Effective From Date 	
Reason for Discussion Request	
<p>Details on the 105 message are necessary for the New Supplier to set up Customer Details on their system. However design currently provides for sending data to the Old Supplier which he would not otherwise have received where there is a change of end Customer. (Customer Name ,Contact Details, Customer Special Needs, Medical Special Needs..) and Supplier data.</p>
