DR 0009	<i>Sending Different data on the 111 message to old and new supplier</i>	<i>MED</i>

<b>Name of Requesting Organisation</b>	<i>ESB MOIP</i>
<b>Contact name</b>	<i>Theresa O Neill</i>
<b>Date Request sent to ESB MOIP</b>	<i>N/A</i>

<b>Detail of Discussion Request</b>	
<p>MM 111 Registration Cancellation confirms a cancellation on an MPRN to both the Old and New Suppliers .</p> <p>This DR proposes that the existing message with all the fields populated is sent to the New Supplier but the Old Supplier's message would only have the following fields populated :</p> <ul style="list-style-type: none"> <li>• MPRN</li> <li>• Supplier ID</li> <li>• Cancellation Reason</li> <li>• Effective From Date</li> </ul>	
<b>Reason for Discussion Request</b>	
<p>The main reason for this DR is that the Market Participant Business Reference can only be provided to the party that supplied it. Therefore the Market Participant Reference Number should only be populated on the message sent to the New Supplier. This number may not be unique across the Market ,(the Old Supplier may be using the same number series for other reasons in their system) and accordingly receipt of this number may cause problems to the Old Supplier</p>
