

MIG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0022	<i>Change Optionality of Fields on Market Messages</i>	<i>MED</i>

Name of Requesting Organisation	<i>ESB MOIP</i>
Contact name	<i>Sharon Tobin</i>
Date Request sent to ESB MOIP	<i>N/A</i>

Detail of Discussion Request
<p><u>016 Change of Legal Entity</u></p> <ul style="list-style-type: none"> • Make the 'Read Reason' field on the 016 Change of Legal Entity message 'Optional' rather than 'Mandatory' • In addition the optionality of the 'Serial Number' field should be changed to 'D' <p><u>Change to Optionality of 'Country- Ireland' field on Notification Address</u></p> <p>'County Ireland' field is mandatory for notification addresses where the country is IE. Change from D (dependent) to O (optional). - Messages containing notification address where county-ireland is D.</p> <ul style="list-style-type: none"> • 013 Change of customer details • 010 Registration request • 016 Change of legal entity • 017 Meter point status change request • 101 New Connection Registration Acceptance • 101P New Connection Provisional Acceptance • 102 Change of Supply Registration Acceptance • 102N Change of Supplier - Default Registration Notification • 102P Change of Supplier Provisional Acceptance • 105 Change of Supplier Confirmation <p><u>Change to Optionality – Street and PO box Number of Notification address</u></p> <ul style="list-style-type: none"> • Street and PO Box Number should be changed from Mandatory to D (Dependent) <p><u>Change to optionality – Country of Notification and Technical Contact Address</u></p> <ul style="list-style-type: none"> • Country should be changed from O (Optional) to D (Dependent) <p><u>303R - Customer Read rejection</u></p> <p>Serial number at the Meter Id Level (Level 3) should be D not M on message 303R.</p> <p>If this change were not applied then most 303R messages being sent would fail IDE validation as Serial number is not mandatory on 010 or 210 and these messages will not have this field populated in many cases</p>

Reason for Discussion Request016 Change of Legal Entity

- Currently if there was no read reason populated, even if read data was not provided, the message would fail initial validation which is incorrect
- The meter sequence number is not required when there is only one meter point installed at the MPRN. Therefore this number will only be mandatory in defined circumstances. Unless a change is made, where the Serial Number is not populated and there is only one meter at the MPRN a plausible read may be rejected, which could be used by Networks.

Change to Optionality of 'Country- Ireland' field on Notification Address

- Current design unnecessarily restrictive

Change to Optionality – Street and PO box Number of Notification address

- Design requires only Street type address or PO Box Type Address to be populated.

Change to optionality – Country of Notification and Technical Contact Address303R - Customer Read rejection

If this change were not applied then most 303R messages being sent would fail IDE validation as Serial number is not mandatory on 010 or 210 and these messages will not have this field populated in many cases

Market Design Documents impacted by Request

- Ver 4.1 of Market Message Catalogue
- Ver 4.1 Market Message Implementation Guides
- Ver 4.1 of XML Schema

Date of MIG where discussed

15/04/04
