

MIG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0025	<i>Additions to Recipient IDs on market messages</i>	<i>MED</i>

Name of Requesting Organisation	<i>ESB MOIP</i>
Contact name	<i>Sharon Tobin</i>
Date Request sent to ESB MOIP	<i>N/A</i>

Detail of Discussion Request																	
<p>A new Market Role ID is required for TSO as TSO is a valid recipient of market messages. At present there are only two values, one for DSO (to incorporate all of Networks) and one for SSA. This will be used to populate Recipient ID which appears in the Header segment of market messages.</p> <p>In addition – the Recipient ID field in the Header will also require to be populated with Generator Ids – i.e. the same contents as the Generator MPID without the last char. For example where the Generator MPID is D04G then the Generator ID should be D04.</p> <p>The following 7 messages may be sent by MRSO to TSO or to a Generator - no messages are received from either party by ESB Networks:</p> <table style="border: none;"> <thead> <tr> <th style="text-align: left;">MsgNo</th> <th style="text-align: left;">MsgName</th> </tr> </thead> <tbody> <tr> <td>101</td> <td>New Connection Registration Acceptance</td> </tr> <tr> <td>105</td> <td>Change of Supplier Confirmation</td> </tr> <tr> <td>111</td> <td>Registration Cancellation</td> </tr> <tr> <td>122</td> <td>De-Registration Confirmation</td> </tr> <tr> <td>341</td> <td>QH Meter Daily data</td> </tr> <tr> <td>504</td> <td>Embedded Generation - DNGG</td> </tr> <tr> <td>504S</td> <td>Re-aggregated Embedded Generation - DNGG</td> </tr> </tbody> </table>		MsgNo	MsgName	101	New Connection Registration Acceptance	105	Change of Supplier Confirmation	111	Registration Cancellation	122	De-Registration Confirmation	341	QH Meter Daily data	504	Embedded Generation - DNGG	504S	Re-aggregated Embedded Generation - DNGG
MsgNo	MsgName																
101	New Connection Registration Acceptance																
105	Change of Supplier Confirmation																
111	Registration Cancellation																
122	De-Registration Confirmation																
341	QH Meter Daily data																
504	Embedded Generation - DNGG																
504S	Re-aggregated Embedded Generation - DNGG																
Reason for Discussion Request																	
<p>These fields will be required to populate the Sender and Recipient Id fields in the header of all market messages. At present it is not possible to identify all valid recipients of market messages.</p> <p>.</p>																	
Market Design Documents impacted by Request																	
<ul style="list-style-type: none"> • Ver 4.1 of Market Message Catalogue • Ver 4.1 Market Message Implementation Guides • Ver 4.1 of XML Schema 																	
Date of MIG where discussed	<i>06/05/04</i>																
Change Request xref (if applicable)	<i>CLOSED by raising MCR 0019</i>
