

## MIG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0028	Sending two versions of market message 105.	High

Name of Requesting Organisation	<i>Energia</i>
Contact name	<i>Edward Barr</i>
Date Request sent to ESB MOIP	<i>26/04/04</i>

Detail of Discussion Request	
<p>This DR proposes to send message 105 to the new supplier and to implement a new message with the contents underneath to the old supplier</p> <ul style="list-style-type: none"> <li>• MPRN</li> <li>• Meter Point Address</li> <li>• Effective From Date</li> </ul>	
Reason for Discussion Request	
<p>There are 2 messages with the same message number, which should cause different business processes to be invoked, the lost of a customer and the gain of a customer. This is causing a major problem during our system build, as the original assumption that a market message number should be unique to an individual market process. This will also cause problems when a market participant tries to reconcile the end of day market message report with their internal systems.</p>	
Market Design Documents impacted by Request	
<p>Ver 4.1 of Market Messages – 105 Change of Supplier Confirmation Message            Ver 4.1 of Registration Messages Implementation Guide            Ver 4.1 XML Schema            Ver 4.1 of MPD 1 – Change of Supplier – NQH            Ver 4.1 of MPD 2 – Change of Supplier - QH</p>	
Date of MIG where discussed	<i>06/05/04</i>
