Detail of Discussion Request

A supplier may request multiple changes to customer details for the same MPRN on a single instance of message 013. It is possible that some changes may be confirmed immediately while others may require investigation by DSO prior to confirmation. In such circumstances a supplier may receive multiple 114 confirmation messages in responses to a single 013 request.

The MPD does not clearly reflect this at present and should be updated.

Reason for Discussion Request

To ensure the MPD accurately reflects the market process.
