

Form A – MIG Design Discussion Request

Discussion Request Number	Title	Priority
<i>DR 0059</i>	Modify MPCC to allow multiple Supplier IDs per Market Participant	<i>High</i>

Name of Requesting Organisation	<i>ESB MOIP</i>
Contact name	Tony Conefrey
Date Request sent to ESB MOIP	<i>19/7/2004</i>

Detail of Discussion Request	
<p>The current design of the MPCC (black box) software requires the participant ID to be unique to that instance of the software. Accordingly the current design does not:-</p> <ul style="list-style-type: none"> • Provide a proven capability to enable MRSO /DSO to route outbound messages relating to different Supplier IDs to the same instance of the MPCC. • Easily allow Suppliers - using Webforms - to send market messages relating to different Supplier IDs to MRSO / DSO. Suppliers would be required to manually change the properties file for the MPCC instance each time they wish to change the Supplier id on a Web form generated market message 	
Reason for Discussion Request	
A number of market participants (suppliers and generators) have indicated that they would like to appoint message agents (i.e. appointing another MP to send and receive messages on their behalf)	
Market Design Documents impacted by Request	
<i>MPCC</i>	
Date of MIG where discussed	<i>Deferred until post go-live</i>
Change Request xref (if applicable)
