

## Form A – MIG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0095	ADD VALIDATION TO USE OF REGISTERED COMPANY NUMBER	<i>Med</i>

<b>Name of Requesting Organisation</b>	<b>ESB Networks</b>
<b>Contact name</b>	<b>Cormac Madden</b>
<b>Date Request sent to ESB MOIP</b>	

### Detail of Discussion Request

To prevent the occurrence of erroneous inferring of Change of Legal Entity it is proposed to add validation surrounding Registered Company Number to the following Market Messages for sites over 100 kVA:

- 010 – Registration Request
- 013 – Change of Customer Details

The logic rules are outlined in the attached document.

This data item is already included as part of the market data model, although presently no validation is carried out on it.

As part of this change, ESB Networks propose to provide to each Supplier a list of companies over 100 kVA, as well as their associated Registered Company Number, following a data population exercise to be carried out by ESB Networks.

### Reason for Discussion Request

To prevent ESB Networks from inferring CoLE for sites over 100 kVA where a name is mis-spelt, or where a company re-brands, thus preventing unnecessary Connection Agreements form issuing.
