

Form A – MIG Design Discussion Request

Discussion Request Number	Title	Priority
<i>DR 0101</i>	Remove the drop down list from the Generator Unit ID field in the webforms.	<i>Medium</i>

Name of Requesting Organisation	<i>ESB Networks</i>
Contact name	<i>Brona McKnight</i>
Date Request sent to ESB MOIP	<i>05/01/06</i>

Detail of Discussion Request	
<p>Change to the webforms is required after MPCC v 11 release to remove the drop down list from the Generator Unit ID field in the webforms. The effect such a change would have in SAP must be investigated before the drop down list can be removed from the Webforms. A work around is being put in place in the meantime which will allow Market Participants to enter a generator code not contained in the drop down list.</p>	
Reason for Discussion Request	
<p>The reason for removing the drop down list is to allow for new Generator Unit ID's which may not be in this drop down list to be added by Market Participants. The validation of the Generator Unit ID field has already been removed in the schema but the drop down list remains in this field on the Webforms.</p>	
Market Design Documents impacted by Request	
<p><i>XML Schema 5.0</i> <i>Guidance Documents Version 5.0</i></p>	
Date of MIG where discussed
