

Form A – MIG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0106	Proposal to change Suppliers Extranet so that it shows only billable devices and add Meter Multiplier field	High

Name of Requesting Organisation	Energia
Contact name	Edward Barr
Date Request sent to ESB MOIP	9 th Feb 2006

Detail of Discussion Request

As shown by the screen shot below the Retail Market Participant Extranet displays technically installed meters as well as billable ones. This means that if Suppliers use the Extranet to validate the information received at CoS or following a Meter Change it cannot be immediately reconciled with the information received on the market message (320 or 332 etc).

Meter Details							
Metering Class	NGH	Meter Location:					
Meter Configuration Code:	MCC02	Last Actual Read Date:	17.01.2006				
Eligibility for OH Metering:		Read Cycle Day	10				
		Next Read Date:	14.03.2006				
List of Meters							
Meter Category	Serial Number	Date Meter Installed	Meter Register Sequence	Timeslot	Reg Type	Pre Decimal digits	Post Decimal digits
RM624	Z00002975	07.11.2002	001	00D	02	05	00
RM624	Z00002975	07.11.2002	002	00N	03	05	00
RMAB1	Z00000818	09.11.2004	001	24H	01	05	00

It is proposed to raise an MCR in order to change the way the Extranet site maps to Networks SAP ISU so that only **Billable** registers are viewable on the Site.

In addition it is proposed to add **Meter Multiplier** to the list of Meters details per register (above) so that Suppliers can view a full set of meter details at a register level.

Reason for Discussion Request

Facilitate discussion around the impact of these two items on Suppliers and decide on the next steps
