Name of Requesting Organisation	<i>Airtricity</i>
Contact name	<i>Siobhan Leane</i>
Date Request sent to ESB RMDS	<i>15/06/06</i>

Detail of Discussion Request	
<i>Request that any valid reads submitted on an M210 Supplier Provided Reading (read reason 95 – not for CoS) are accepted by ESB Networks regardless of whether a complete set of readings for every register is provided or not.</i>	
Reason for Discussion Request	
<i>For a variety of reasons customers may not provide a supplier with a complete set of readings. If suppliers forwards these customer reads to ESB Networks they are rejected despite being valid customer reads. This means that these valid customer reads for the registers provided are not used in future estimation calculations, DUoS corrections, or Settlement.</i>
