

## Form A – IGG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0161	New web service containing MPRN data currently displayed on the MP Extranet	

Name of Requesting Organisation	RMDS
Contact Name	Oonagh Delaney
Date Request sent to RMDS	18 <sup>th</sup> September 2008

Date	Version	Reason for Change
9 <sup>th</sup> October 2008	V1.0	First Draft

Detail of Discussion Request	
<p><b>Background:</b></p> <p>Market Participants requested the provision of a web service whereby a supplier could send out a procedural call to the ESB Networks MP Extranet website using an MPRN and pull back all of the data fields on the existing MPRN data screen on the MP Extranet website.</p> <p>A similar web service has already been developed for the contracting regulatory bodies (RECI) and is used as part of the process of advising receipt of a Completion Cert to ESB Networks. It appears that this web service cannot be re-used as it is not suitable for high volume usage and domestic customer names may also be displayed<sup>1</sup>.</p> <p><b>Proposed Change:</b></p> <p>The new web service should contain all of the data fields on the existing MPRN Details screen tab on the MP Extranet (see Appendix 1) and the web service is also required to cater for high daily volume of procedural calls (perhaps up to 3000).</p>	
<p><b>Reason for Discussion Request</b></p> <p>The new web service would facilitate the suppliers in allowing verification of MPRN details prior to sending a request for a Change of Supplier.</p>	
<p><b>Market Design Documents impacted by Request</b></p> <p>None</p>	
Date of IGG where discussed	
Change Request xref (if applicable)	

### PART 2 MARKET ASSURANCE:

<sup>1</sup> Current market rules do not allow for the display of a domestic customers name.

<b>Applicability</b>				
ESB Networks	Suppliers	TSO	SSA	Generators
X	X			
<b>Scope of Test</b>				
Connectivity	DTT	MSA	IPT	Other
			No. Of Scenarios	

<b>Scope of Discussion Request</b>							
Correction to Documentation	Business Process	Market & MP Systems	MPCC	Readings Processor	Market Gateway	Schema	Web Forms

---

## Appendix 1

### Existing MP Extranet Fields:

MPRN Number  
Customer Name – only for sites where the DUoS Group is not DG1 or DG2  
Meter Point Address  
Meter Point Status  
Registration Status  
Connection Agreement  
Trading Site Flag  
DUoS Group  
MIC  
Connection Voltage  
Customer Attribute  
Metering Class  
Metering Configuration Code  
Eligibility for QH Metering  
Meter Location  
Last Actual Read Date  
Read Cycle Day  
Next Read Date

Meter Category  
Serial Number  
Date Meter Installed  
Meter Register Sequence  
Timeslot  
Reg Type  
Pre Decimal digits  
Post Decimal digits
