

Form A – IGG Design Discussion Request

Discussion Request Number	Title	Priority
DR 0153	Working Practice 0016 – Document the procedure to be used for like-to-like QH meter replacement	<i>Medium</i>

Name of Requesting Organisation	Energia
Contact Name	Edward Barr
Date Request sent to RMDS	

Date	Version	Reason for Change
21 st February 2008	1.0	<i>Initial – Working Practice 0016 v1.0</i>

Detail of Discussion Request
<p>Background:</p> <p>When a QH meter is replaced, both the MV90 (data polling) system and the Central Market System (SAP IS/U) need to be updated. Since data is polled daily, the market design calls for the Network Technician to advise the new meter details to PDS from the site. On the other hand, updating of the CMS has depended on the paper service order being sent to Database and the data being keyed in.</p> <p>For this delay period, the daily consumption (341) messages continue to carry the serial number of the old meter. When the CMS is updated, the meter works (331) message will issue. It will correctly advise the actual date of the replacement as the effective date of the change. The result is a mismatch or validation issue between the stream of 341s and the date of installation as advised to the supplier.</p> <p>This DR proposes a working practice to resolve this issue. The working practice has been piloted, fine-tuned, discussed with the IGG and is currently in operation. The Working Practice formalises the details.</p> <p>Proposed Solution</p> <p>Working Practice 0016 v0.1 was circulated to the market on 22nd November 2007 and this document details the process for updating the Central Market System for a like-for-like QH Meter Replacement.</p> <div style="text-align: center;">  <p>Z:\MarketWorking Practice 0016 Like-for</p> </div>
<p>Reason for Discussion Request</p> <p><i>Raised at IGG Meeting held on 8th March 2007</i></p>
<p>Market Design Documents impacted by Request</p>

Detail of Discussion Request	
<i>Working Practice 0016 – QH to QH Meter Replacement v1.0</i>	
Date of IGG where discussed	
Change Request xref (if applicable)	

PART 2 MARKET ASSURANCE:				
Applicability				
ESB Networks	Suppliers	TSO	SSA	Generators
Scope of Test				
Connectivity	DTT	MSA	IPT	Other
			No. Of Scenarios	

Scope of Discussion Request							
Correction to Documentation	Business Process	Market & MP Systems	MPCC	Readings Processor	Market Gateway	Schema	Web Forms
