

## Defect Resolution Request

Defect ID	Title	Priority
DRR 0026	Multiple participant IDs per MPCC instance	High

<b>Defect</b>			
<b>Date raised</b>	1/09/04	<b>Contact name</b>	Tony Conefrey – ESB MOIP
<b>Date issued to MIG</b>			

**Part 1: Detail of Defect & Proposal**

At present the MPCC requires that the participant ID is unique to that instance of the software. This poses a problem for the number of suppliers who have more than one supplier ID under the same supply license.

The MPCC should be modified to allow more than one participant ID per instance of the software.

**Impact of Defect on Market Processes**

Under the current configuration of the MPCC Suppliers with more than one Supplier ID would be required to install multiple instances of the MPCC or modify the properties file every time they wished to receive market messages under a different Supplier ID. .

**Proposal**  
**Proposal Type** (please tick one)

New/modified working practice    
 Amend market design    
 No action    
 Other

**Description**  
 Amend MPCC software as described

**Identification of Baseline Products Impacted**  
 MPCC software

**Part 2: IMPACT ASSESSMENT & DECISION:**  
**Summary of Impact Assessment**

**Modifications Included**

**Reason for Modifications**
