

## Defect Resolution Request

Defect ID	Title	Priority
DRR 0031	Corrections to Rejection Detail segment in message guides v1.0	High

Defect		
Date raised	14/09/04	Contact name
		Tim Cragg - ESB MOIP
Date issued to MIG	14/09/04	

### Part 1: Detail of Defect & Proposal

An inconsistency between the guides and the XML has been identified.

XML will not allow data elements of the same name to repeat in the same segment. This means that where networks wish to send multiple rejection / delay reasons on a message they have to send each rejection reason in a separate rejection details segment. The Message Implementation guides define one rejection details segment and 1..N rejection reasons. This defect is raised to bring the guides into line with the technical implementation of the messages.

### Impact of Defect on Market Processes

Changes to documentation to reflect process

### Proposal

Proposal Type *(please tick one)*

New/modified working practice 
 Amend market design 
 No action 
 Other

### Description

### Identification of Baseline Products Impacted

Market Message Implementation Guide – Meter Registration v4.2  
 Market Message Implementation Guide – Meter Works v4.2  
 Market Message Implementation Guide – Customer Data and Agreements v4.2  
 Market Message Implementation Guide – Data Processing v4.2  
 Market Message Implementation Guide – Data Aggregation v4.2

### Part 2: IMPACT ASSESSMENT & DECISION:
