

Defect Resolution Request

Defect ID	Title	Priority
DRR 0040	Change to optionality on 102P – Provisional Acceptance completion Requirement	High

Defect		
Date raised	04/10/04	Contact name
		Sharon Tobin - ESB MOIP
Date issued to MIG		

Part 1: Detail of Defect & Proposal

At present the Meter Registration Market Message Implementation Guide defines the segment Provisional acceptance completion requirements as 1..N (which contains a field called provisional acceptance completion reqts contained as a mandatory field).

The Market Message DB treats this segment as 0..N. Obviously this is incorrect as a provisional acceptance message should provide at least one reason for the provisional acceptance.

Impact of Defect on Market Processes

Correction of market messages

Proposal

Proposal Type *(please tick one)*

New/modified working practice
 Amend market design
 No action
 Other

Description

It is proposed to amend the market messages Database and XML schema so that they are in line with the Market Message guide (i.e. with cardinality of 1..N)

Identification of Baseline Products Impacted

Market Messages DB V 4.3
Market XML Schema V 4.3
