Part 1: Detail of Defect & Proposal

Installed Value and Billing value

Changes were made as part of 4.3 (DRR034) as follows - Unmetered data items Installed value and Billing value currently defined as NUM (6). It is requested to change these to NUM (16,7)

However the XML Schema was not fully updated in 4.3 i.e. these items still have a type of integer.

This DRR affects all of the unmetered market messages, namely 700, 700W, 701 and 701W.
