### Part 1: Detail of Defect & Proposal

The following fields have been described as flags on the market messages:

- Change of Supplier Estimate acceptable
- Customer Details changed
- Delete Access Instructions
- Delete Customer Service Special needs

At present these are defined in the Business Data definitions as AN(1) while in the XML schema they have been defined as type 'Boolean'. To remove any ambiguity and ensure a consistent interpretation of the design, these definitions will be updated to Boolean in all cases.
