

Defect Resolution Request

Defect ID	Title	Priority
DRR 0071	Update to message 300 instructions in order to reflect Appendix in message guides	Med

Defect		
Date raised	18/01/05	Contact name
		Tim Cragg - ESB MOIP
Date issued to MIG		

Part 1: Detail of Defect & Proposal

The following read reasons are required to be added to message 300 in the Data Processing message implementation guide. This is to bring the guide into line with Appendix 1 in the same document and as previously advised at the MIG.

- 10 Ad hoc non chargeable check read
- 02 Special read – chargeable
- 09 Special read – non-chargeable

The following Read Type is required to be added to message 306 / 332 in the Meter Works message implementation guide. This is to bring the guide into line with Appendix 1A / 1C in the same document and as previously advised at the MIG.

- EF – Estimate (Implausible)

The following read reasons are required to be added to message 332 in the Meter Works message implementation guide. This is to bring the guide into line with Appendix 1C in the same document and as previously advised at the MIG.

- 13 De-energisation
- 18 Energisation
- 23 Meter Works single read

Read reason 09 – Special Read (Non-chargeable) is required to be added to Appendix 1C in the Meter Works Guide as it can be provided in the Retained Meter segment where for example Night Storage Heating has been removed but metering remains.

In addition the Read Status column in the table in Appendix 1C (Data Processing guide) needs to be removed because read status is not provided on message 305.

Impact of Defect on Market Processes

None

Proposal

Proposal Type (please tick one)

New/modified working practice

 Amend market design

 No action

 Other

Description

Identification of Baseline Products Impacted

Market Message Implementation Guide – Data Processing v4.3
 Market Message Implementation Guide – Meter Works v4.3
