

Defect Resolution Request

Defect ID	Title	Priority
DRR 0074	Removal of site specific DLF Codes from 301 and 301N	Med

Defect			
Date raised	27/01/05	Contact name	Tim Cragg - ESB MOIP
Date issued to MIG	31/1/05		

Part 1: Detail of Defect & Proposal

Where an embedded generation site has import and export capability then the DLF codes provided on market message 301/301N should be that which applies to the import capability. The site specific loss factor code will not be provided on these messages as they are not relevant for import.

Site specific DLF codes will still be used as part of the aggregation process and as such will be used on market message 504.

Impact of Defect on Market Processes

Site specific embedded generator code for DLF no longer sent on 301 / 301N

Proposal
