

Defect Resolution Request

Defect ID	Title	Priority
DRR 0077	Clarifications to Registration Processes as a result of learning points issued	Med

Defect			
Date raised	27/01/05	Contact name	Tim Cragg - ESB MOIP
Date issued to MIG	31/01/05		

Part 1: Detail of Defect & Proposal

As a result of both IPT and ongoing system operations a number of learning and clarification points have issued to market participants in relation to the completion of Registration processes. To ensure that the baselined documentation is as clear and detailed as possible the clarifications highlighted below are to be added to the design documentation.

Updates to the Market Message Guide – 010 message

- Meter Point Address** - The address at which the Meter Point is connected. The Supplier should use the address as published by DSO as this will aid validation. *At a minimum ESB Networks require that sufficient information be provided to allow a site to be uniquely identified – 1 Main St, Gorey, Co. Wexford can be more readily validated than simply 1 Main St. In addition, the address matching software will be unable to validate data if it is provided in an incorrect order, e.g. Co. Wexford, 1 Main St, Gorey.* If there is a change of address then, following confirmation of the registration, the Supplier should use message 013 to advise the change.

Updates to the Market Message Guide – 105/105L message

- Effective From Date** - The date from which the New Supplier registration to the Meter Point is effective. The registration is effective from 00h00 at the start of this day. *Where meter works are required as a result of the CoS request then the effective from date will be the date on which the meter works are completed.*

Impact of Defect on Market Processes

Clarifications and learning points issued currently not included in the baselined Market Design.

Proposal			
Proposal Type <i>(please tick one)</i>			
New/modified working practice	<input type="checkbox"/>	Amend market design	<input checked="" type="checkbox"/>
No action	<input type="checkbox"/>	Other	<input type="checkbox"/>
