### Part 1: Detail of Defect & Proposal

As a result of defect fixes following Go-Live Read Reasons 09 and 02 will no longer issue on Market Message 300. This needs to be removed from V 4.4 of the Data Processing Guide and Appendix 1A

In addition, the following combination of fields should be added to Appendix 1B of the same guide (Market Message 300S):

Read reason **02** Read Type **E** Read Status **REST**

As although these codes have each been included in the narrative description of permitted values for each field the appendix omits to consider them as a valid combination.
