Part 1: Detail of Defect & Proposal
<p>Revert to Supplier of Last Resort" MPD 4 covers Single Point Unmetered but not Grouped Unmetered. As Grouped Unmetered CoS is a manual process, GMPRN gains due to invoking the SOLR process would have to be handled manually.</p> <p>Please note: As MRSO are initiating the SoLR process they would need to advise of the relevant GMPRN's</p> <p>Therefore the process as defined in MPD 29 - Change of Supplier -Grouped Unmetered should be followed for Reversion of Group Unmetered site to the Supplier of last Resort.</p> <p>The scope of Section 1.1 of MPD 29 should be updated as follows:</p> <p>This Procedure describes the process for the Change of Supplier of a Group MPRN. This process also covers Reversion of Group Unmetered site to the Supplier of last Resort.</p>
