

Defect Resolution Request

Defect ID	Title	Priority
DRR 0088	Addition of new Meter Category code (RM253)	High

Defect	
Date raised	04-07-05
Contact name	Tim Cragg
Date issued to IGG	

Part 1: Detail of Defect & Proposal

This DRR is raised to add new Meter Category code RM253 to the valid code set for this data item. Further to the recent CER decision, the validation of this code set will no longer be carried out in the Market Schema once v5.0 is release on July 9th

There are approximately 500 instances of this Meter Category in existence at present; mostly meters in stock but not yet installed at customer sites. Approximately 20 sites are currently affected.

The details are:

Meter Category	Description	Unit of measurement	MCC	Pre decimal digits
RM253	electronic 2 rate	2 X kWh	MCC02	6

As the meter type applies to an existing MCC, no change in the Meter Configuration Guidance Notes is required.

Impact of Defect on Market Processes

Addition of new valid value for Meter Category code to Retail Market Data Transfer Catalogue.
