| Date issued to IGG | | | |

| Part 1: Detail of Defect & Proposal |
|---|
| <p>A number of duplicate 012 and 011 messages have been received from Suppliers since go live. These have to be manually cancelled in Networks ISU.</p> <p>It is proposed to add existing rejection reason code IA – Invalid Action to message 112R and 111R.</p> <p>This is to cater for the scenario where a Supplier sends a duplicate 012 or 011. The second duplicate 012 / 011 would be rejected using 112R / 111R, with Reject reason IA.</p> <p>This reject reason will only be used in circumstances where we receive a second 012 / 011 message while the objection / Cancellation procedure is still in process for the first 012 / 011. It will not prevent the receipt of a second 012 / 011 where the first process is complete.</p> <p>This is the only scenario where this reject reason would be used on these messages.</p> <p>Proposed added text to page 99 of message guide is below in blue:</p> <p>A code to identify why data was rejected</p> <ul style="list-style-type: none"> o IA – The 012 received was a duplicate request. MRSO Already have a valid, open objection for this MPRN <p>Proposed added text to page 90 of message guide is below in blue:</p> <p>A code to identify why data was rejected</p> <ul style="list-style-type: none"> o IA – The 011 received was a duplicate request. MRSO Already have a valid, cancellation for this MPRN |
