

Defect Resolution Request

Defect ID	Title	Priority
DRR 0092	MPCC Malformed message not logged correctly	High

Defect			
Date raised	13-10-2005	Contact name	Tim Cragg
Date issued to IGG			

Part 1: Detail of Defect & Proposal

A malformed message passed to the MPCC attempts to log the error to the database.

However it is not possible for the MPCC to access the contents of the message to gather information on it. The transaction reference number and the message type code from the previous message were logged as a result. This defect was identified as a result of the v10 MPCC rollout.

Impact of Defect on Market Processes

Proposal
Proposal Type *(please tick one)*

New/modified working practice
 Amend market design
 No action
 Other

Description

A fix is to be developed so that "N/A" will be stored against the Transaction Ref and Message Type fields.

Identification of Baseline Products Impacted

MPCC v11
