PART 1 CHANGE REQUEST:

Name of Requesting Organisation	ESB MOIP		
Contact name	Anthony Byrne		
Date Change Request Raised	06/04/04	Originating Discussion Doc	DR 0014

Detail of Change Request

MPD 23 – Supplier Data Requests currently allows for the requesting and sending of refresh messages. These messages are also catered for in the Market Messages database V 4.1 and the XML schema.

Following a review of the design ESB MOIP is now proposing to address the requirement to be able to re-send market message related data to suppliers in the following manner:

Rather than having a suite of refresh messages covering a selected subset of market messages it is proposed to provide a more general facility that will enable market participants to request the resending of any given market message or all messages relating to a given MPRN

The requested "resend" message will be sent to the Supplier in exactly the same form as the original message (the same transaction number and business reference number).

Reason for Change Request

Change in proposed approach to providing market participants with a refresh of market data.
