### PART 1 CHANGE REQUEST:

Name of Requesting Organisation	Eirgrid		
Contact name	Philip Bourke		
Date Change Request Raised	20 <sup>th</sup> May 2010	Originating Discussion Request	
		DR	0180

### Detail of Change Request

EirGrid/TSO require the Central Market Systems to send a copy of the following market message:

- 342 (Export QH Meter Daily Readings)

This change will be facilitated by a change in the Central Market Systems that control the issuing of messages to agreed recipients. No schema update is required to effect this change.

### Reason for Change Request

Currently, TUOS billing by EirGrid involves practices that are heavily manual and therefore would benefit from more automation to improve efficiencies and conserve resources.

Specifically, EirGrid require the data from the existing 342 market message for the billing of TUoS for Distribution-connected generation.

Note: Market Message 342 is available for NPEG Non-Price Effecting Distribution Connected Generation. Excluded from scope is all PEG Price Effecting Distribution Connected Generation
