PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:

Requesting Organisation(s)	NIE	Originating Jurisdiction	NI
Contact name	Joan-Edel Smith		
Date Request Raised	15/09/2010	Originating Request	DR 1014

Detail of Request
Reason for Request

This Discussion Request proposes that NIE adopts the same format as ESB for DUoS and Transactional invoices and backing detail.

NIE currently produce the following outputs:

- A header page showing the total of the charge amount before VAT, the VAT, the total invoice amount and a breakdown of the charges for each charge type (including billable charges)
- A detailed breakdown of the charges applied at MPRN level

ESB produce the following DUoS outputs:

- A header page showing the total of the charge amount before VAT, the VAT and the total invoice amount
- A summary page showing the charges for each charge type and DUoS Group
- A detailed breakdown of the charges applied at MPRN level

ESB produce the following Transactional Charge outputs:

- A header page showing the total of the charge amount before VAT, the VAT and the total invoice amount
- A detailed breakdown of the charges applied at MPRN level

To harmonise the style and content of DUoS and Transactional invoices

Proposed Solution

NIE to produce the following DUoS outputs:

- A header page showing the total of the charge amount before VAT, the VAT and the total invoice amount
- A summary page showing the charges for each charge type and DUoS Group
- A detailed breakdown of the charges applied at MPRN level

NIE to produce the following Transactional Charge outputs:

- A header page showing the total of the charge amount before VAT, the VAT and the total invoice amount
- A detailed breakdown of the charges applied at MPRN level
