<b>Date Request Raised</b>	21/03/2011			<b>Originating Request</b>		DR 1054		
<b>Detail of Request</b>								
<b>Reason for Request</b>								
Supplier Certification is not currently performed in the interim solution. Although validation of Supplier certification was initially included in the NIE Enduring Solution requirements, it is now proposed to harmonise with the arrangements in RoI where the market systems do not monitor the certification status of Suppliers, or validate their market message requests against certification status.								
<b>Proposed Solution</b>								
This Discussion Request proposes that Supplier certification is not validated by the market systems. The market messages impacted by this proposal are: 101R; 102R; and 130R and requires the removal of Reject Reason code "ISC - Invalid Supplier Certification"
