<b>PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:</b>					
<b>Requesting Organisation(s)</b>	HRDS		<b>Originating Jurisdiction</b>	ROI/NI	
<b>Contact name</b>	Joan-Edel Smith / Peter Cabena				
<b>Date Request Raised</b>	03/08/2011		<b>Originating Request</b>	DR 1079	
<b>Detail of Request</b>					
<b>Reason for Request</b>					
<p>This change request proposes the introduction of the latest version of the Harmonised Baseline (HBL), V2.3. The Baseline has been agreed to ensure consistent implementations of the Core Elements (Messages and Data Definitions and Codes) of the Retail Electricity Market design across the ROI and NI jurisdictions. This request is a container request only, that is, it summarises all of the approved MCRs that impact on the previous HBL version and presents the resulting, updated HBL product. It does not, in itself, bring forward any new proposed changes.</p>					
<b>Proposed Solution</b>					
<p>The Core Elements are:</p> <ol style="list-style-type: none"> <li><b>Data Definitions and Codes</b> (a set of all of the agreed data items definitions and, where appropriate, their associated coded value sets and in which jurisdiction (s) they are used)</li> <li><b>Market Messages</b> (a set of common market message structures for use in both jurisdictions along with an impact assessment of the changes needed in each jurisdiction to existing messages in order to implement the baseline structures).</li> </ol> <p>The two jurisdictions will use the Core Elements to build separate jurisdiction-specific Market Message Guides and, in the case of ROI, an overall Impact document.</p> <p>These Core Elements are at Version 2.3 and, from a business perspective, represent all of the content of the previous version of the Baseline plus all of the relevant updates agreed at the HWG meetings up to and including 12th February, 2012, and subsequently approved at the HSG.</p> <p>This version of the HBL does not require a schema change and, as such, remains fully aligned with Version 10, draft 10 of the Harmonised Schema.</p> <p>Physically, the Core Element files are in a single Excel Workbook and a copy is embedded on page 3 of this change request, along with an MCR-le</p>
