

MCR		1108		Update to description and usage of Delay Reason Code 'DE01' on 130D			Priority
Harmonisation Status		CLOSED - Approved			CR Status	Approved	
					Status Date	12/12/2011	
Date	Version	Reason For Change				Version Status	
28/11/2011	v1.0	Initial version				Final	
12/12/2011	V2.0	Approved as MCR at same meeting without change from DR Version				Final	
PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:							
Requesting Organisation(s)	NIE			Originating Jurisdiction	NI		
Contact name	Joan-Edel Smith						
Date Request Raised	28/11/2011			Originating Request	DR 1108		
Detail of Request							
Reason for Request							
<p>This discussion request proposes three changes</p> <ol style="list-style-type: none"> 1. That the description for Delay Reason code 'DE01' is changed from "Completion Certificate Required" to "Completion Certificate/Connection Card Required" 2. That 'DE01' will be used in NI 3. That 'DE01' will be sent on the 130D to notify Suppliers that a requested change of MCC will be delayed because a new Connection Card will be required from the customer before the work can be completed. <p>This situation will arise where an MCC which includes heating is being requested and the premise does not currently have an MCC which includes heat. NIE need to know the additional Heating Load that is required at the premise and the Connection Card will provide this information.</p> <p>This change will prevent the cost of an additional visit being charged to Suppliers unnecessarily. If NIE do not hold back the job until receipt of the Connection Card, then the electrician who makes the first visit will not be able to complete the job and will have to reschedule and wait for the Connection Card before returning to complete the job, thus incurring a re-visit fee.</p>							
Proposed Solution							
<p>NIE propose</p> <ol style="list-style-type: none"> 1. That the description for Delay Reason code 'DE01' is changed from "Completion Certificate Required" to "Completion Certificate/Connection Card Required" 2. That 'DE01' will be used in NI 3. That 'DE01' will be sent on the 130D to notify Suppliers that a requested change of MCC will be delayed because a new Connection Card will be required from the customer before the work can be completed <p>The code will be sent on the 130D in response to a 030 which is requesting a change of MCC from one that does not include heat to one that does include heat (N004/5/6/7).</p>
