

MCR 1109 Sundry changes for Harmonised Baseline V2.2				Priority Fast Track			
Harmonisation Status			CLOSED - Approved		CR Status	Approved	
					Status Date	12/12/2011	
Date	Version	Reason For Change			Version Status		
06/12/2011	v1.0	Initial version for discussion at HWG			Final		
12/12/2011	V2.0	Approved to MCR at same meeting without change to DR version			Final		
PART 1 DETAIL OF DISCUSSION REQUEST/MARKET CHANGE REQUEST:							
Requesting Organisation(s)	HRDS		Originating Jurisdiction		RoI		
Contact name	Peter Cabena						
Date Request Raised	30/11/2011		Originating Request		DR 1109		
Detail of Request							
Reason for Request							
<p>This request covers a number of proposed changes in the Harmonised Baseline V2.1 to reflect design outcomes from the ESB Networks Harmonisation Project.</p> <p>The items include the proposed removal of the 501, 504 and 505 message definitions from the schema as these old ROI Message are no longer used since the introduction of the SEM arrangements. ROI will not offer resends of these messages and NI will not use them. Some code values are proposed for removal as they will not be used in either jurisdiction following Harmonisation.</p> <p>Also, several coded values are now no longer to be used in either jurisdiction and these have been removed from the Harmonised Baseline as described below.</p> <p>Also, several business definitions were found to be lacking in completeness and these have been replaced as described below.</p>							
Proposed Solution							
<p><b>Market Message Changes:</b> Removal of the following Market Message definitions from the HBL and Harmonised Schema:                      1. 501 Estimate Aggregated Supplier Non Interval Consumption                      2. 504 Embedded Generation DNGG                      3. 505 Aggregated Supplier Interval Consumption</p> <p><b>Data Codes Changes:</b> Removal of the following Code definitions from the HBL and Harmonised Schema:  <i>Request Status Codes</i> as follows: C (Completed), D (Delayed), N (Not Completed) and X (Cancelled)  <i>Reject Reason Codes</i> as follows: SBI (New Domestic Registration), SSA (A message has not been received from SSA advising Generation Unit ID and Generator Unit MPID in advance of the registration from Supplier)</p> <p><b>Data Definition Changes:</b>  <i>Estimated Usage Factor</i>: description to be changed from "See Message Specific Information" to "Estimated Usage Factor is a statement in kWh of the estimated consumption for a given Timeslot at a Meter Point over the next year"</p> <p><b>Data Item Usage / Schema Changes:</b>  <i>PSOExemptionFlag</i>: this data item has changed from Required to Optional as it is not used in NI. This requires a schema change for the two Market Messages on which this data items appears: 700 and 700W.</p>							
Classification of Request							
Harmonisation Impacting		X		Harmonisation Baseline Version No.		TBD	
NI Specific		RoI Specific		Operational	Date of Transfer from HWG		
Scope of Request							
Design Documentation	Business Process	Market & MP Systems	Market Gateway (Hub)	MPCC/ EMMA	Schema	Web Forms	Extranet
