

## Market Change Request

Change Request Number	Title	Priority
MCR 0019	Additions to Recipient IDs on market messages	MED

### PART 1 CHANGE REQUEST:

Name of Requesting Organisation	ESB MOIP		
Contact name	Sharon Tobin		
Date Change Request Raised	18/05/04	Originating Discussion Doc	DR 0025

### Detail of Change Request

A new Market Role ID is required for TSO as TSO is a valid recipient of market messages. At present there are only two values, one for DSO (to incorporate all of Networks) and one for SSA. This will be used to populate Recipient ID which appears in the Header segment of market messages.

In addition – the Recipient ID field in the Header will also require to be populated with Generator Ids – i.e. the same contents as the Generator MPID without the last char. For example where the Generator MPID is D04G then the Generator ID should be D04.

The following 7 messages may be sent by MRSO to TSO or to a Generator - no messages are received from either party by ESB Networks:

MsgNo	MsgName
101	New Connection Registration Acceptance
105	Change of Supplier Confirmation
111	Registration Cancellation
122	De-Registration Confirmation
341	QH Meter Daily data
504	Embedded Generation - DNGG
504S	Re-aggregated Embedded Generation - DNGG

### Reason for Change Request

These fields will be required to populate the Sender and Recipient Id fields in the header of all market messages. At present it is not possible to identify all valid recipients of market messages.

### Identification of Baseline Products Impacted

- Ver 4.1 of Market Message Catalogue
- Ver 4.1 Market Message Implementation Guides
- Ver 4.1 of XML Schema

### Description of Trading & Settlement Code Impact (if any)

*No Impact*
