

## Market Change Request

Change Request Number	Title	Priority
<b>MCR 0043</b>	Minor Changes arising to Market Messages arising from testing	<i>MED</i>

### PART 1 CHANGE REQUEST:

<b>Name of Requesting Organisation</b>	<i>ESB MOIP</i>		
<b>Contact name</b>	<i>S Tobin</i>		
<b>Date Change Request Raised</b>	<i>5/07/04</i>	<b>Originating Discussion Doc</b>	<i>DR 0050</i>

### Detail of Change Request

A number of minor changes are required to the market messages arising from errors found in testing. The changes required are:

#### **Market Message 110**

CoS read arrangement is a mandatory field. As this field is optional on message 010 (i.e. only to be provided for NQH sites) it must also be optional on 110.

#### **Market Message 014R**

Optionality of meter point address and customer name segments should be changed from Mandatory to Optional.

#### **Market Messages 700, 700W**

Field Meter Configuration Code is currently optional – it should be mandatory

Segment Consumption details records currently has cardinality of 0..N – this should be 1..N (i.e. this is a mandatory rather than an optional segment)

### Reason for Change Request

To correct errors found in testing, specifically:

Market Message 110 - CoS Read arrangement cannot be mandatory as, for QH and unmetered sites, this field is not required

Market message 014R- If 013 message is received with an invalid MPRN then Meter point address and customer name cannot be provided on the corresponding message 014R.

Messages 700, 700W – These messages require that consumption details should always be provided.

### Identification of Baseline Products Impacted

*Market Message Catalogue – 700 – Unmetered characteristics and AUF V 2.1*

*Market Message Catalogue – 700W – Withdrawal of Unmetered characteristics and AUF V 2.1*

Market XML Schema V 4.1

Market Messages Implementation guide – Unmetered V 2.1

### Description of Trading & Settlement Code Impact (if any)

*No Impact*
