Date Change Request Raised	<i>05/05/2005</i>	Originating Discussion Doc	<i>DR 0066</i>

Detail of Change Request

Analysis of scenarios, such as Local Authority boundary changes, where it is found a TMRN should move from one GMPRN to another reveals the need for an additional Unmetered MPD.

To support this, a new Transaction Reason Code "CoG" should be added to the 700 Technical Characteristics Market Message to reflect the Change of Group MPRN.

An MPD will be required to document the circumstances under which this new code would be used, and the procedures to be followed. However, as discussed in DR 0066 it is proposed to apply the XML schema change in advance of the drafting of this MPD.

Reason for Change Request

To incorporate a code into the latest XML schema release which will be required to inform Suppliers of changes to unmetered installations.
