

## Market Change Request

Change Request Number	Title	Priority
<i>MCR 0060</i>	New Message to contain customer details on conversion from NQH to QH	<i>High</i>

### PART 1 CHANGE REQUEST:

<b>Name of Requesting Organisation</b>	TSO/SSA		
<b>Contact name</b>	Mary d'Arcy		
<b>Date Change Request Raised</b>	18-May -2005	<b>Originating Discussion Doc</b>	DR 0079

### Detail of Change Request

An issue has been identified with the Market Design for supporting the ESBNG when communicating the completion of a QH meter works job. The issue arises when ESB Networks complete a NQH to QH exchange.

In this case ESB Networks would send a 332 message and a 331 message to a Supplier who would already have the end customer information for the site.

The ESBNG would only receive the 331 message and would not have the end customer information. They would receive this message because the site had become QH.

The fields requested are:

Customer, Customer title,  
 MPRN at the site,  
 Site address, Name, Region, Country, (ie full Address)  
 New MIC  
 Voltage  
 Connection designation, i.e. T or D  
 Supplier Details

Additional Fields that may be included:

SSAC  
 Connection System Code  
 DLF Code  
 Transformer Loss Factor  
 Technical Contact Name  
 Technical Contact Details  
 MPRN Level Info

- MEC (Maximum Export Capacity)
- Generator Unit ID
- Generator Unit Aggregation Code

<b>Reason for Change Request</b>
A new Market Message is requested to be sent to TSO/SSA to provide the ESBNG with certain customer information at the same time that a 331 is issued. The new message would relate to the NQH-QH meter works jobs to be completed.
<b>Identification of Baseline Products Impacted</b>
N/a
<b>Description of Trading &amp; Settlement Code Impact (if any)</b>
No Impact

<b>Date that ESB MOIP issue Change Request</b>	10/06/05
