

Market Change Request

Change Request Number	Title	Priority
MCR 0075	Amendment to 501S	High

PART 1 CHANGE REQUEST:

Name of Requesting Organisation	ESB MRSO		
Contact name	John Casey		
Date Change Request Raised	09-03-06 Re-Drafted	Originating Discussion Doc	DR 0097

Detail of Change Request

Following on from discussions at the Mod Panel, CER has decided that NQH consumption should be resettled on a half hourly basis for the time since January 2005 until the SEM arrangements are fully phased in. To carry out the resettlement, they require 15 minute reaggregation difference information rather than at rolled up single day and night difference as currently. There is also a requirement for ESB Networks to provide historical data back to Jan 2005.

It is proposed to provide:

1. Amended 501s message
2. Program to create 501S messages for historical RA periods

This will allow:

- Re-Aggregation runs for future Reconciliation Periods (until replaced by new SEM procedure) will provide RA Differences in 15-minute intervals via 501S messages.
- A program can be run for historical RA Differences (back to Jan. 05) to:
 - use a bespoke program to identify required RA result profiles
 - use function module of amended 501S to create 501S IDoc messages
 - communicate messages via existing protocols & procedures:
 - Hub creates 501S XML messages
 - MRSO encrypt 501S messages, write them to CD, & post to Market Participants.
