

### Market Change Request

Number	Title	Priority
<b>MCR</b> 155	Corrections to ARIS Market Message Structures	<i>High</i>

Date	Version	Reason For Change
27/09/2007	1.0	Market Change Request raised containing no changes from the associated Discussion Request.

CHANGE REQUEST:		
<b>Name of Requesting Organisation</b>	RMDS	
<b>Contact name</b>	Richard Bloomfield	
<b>Date Change Request Raised</b>	26 <sup>th</sup> September 2006	<b>Originating Discussion Request</b>
		DR 127

Detail of Change Request
<p><i>It is an objective of the market design documentation to be as closely integrated as possible. It should be possible to build an XML message based on its depiction in ARIS.</i></p> <p><i>As part of a quality review of the design documentation displayed in ARIS, a comparison was carried out between the pictorial representation of each message in ARIS and the structure of the same message in the schema.</i></p> <p><i>As a result, some discrepancies were found. None of these differences affects the information content or format of the data items. This MCR seeks to resolve the discrepancies by changing the depiction in ARIS to match the structures in the schema (6.1).</i></p> <p><b><i>This MCR impacts on the information in the market design only and has no impact on IT systems.</i></b></p> <p><i>The attached document details each discrepancy followed by a proposal for its resolution by a change to ARIS. The principles that were applied to infer these changes are listed below:</i></p> <p><i>Design Principles</i></p> <ul style="list-style-type: none"> <li>• <i>In all cases, the XML Schema is followed as this is the de facto standard currently implemented on MP systems. Thus all proposed changes are intended to be made to the ARIS structures.</i></li> <li>• <i>All changes are such that the message structures in the schema could be generated from those in ARIS</i></li> </ul> <p> DR 0127 MM Corrections.doc</p>
Reason for Change Request

*A detailed comparison between the Market Message structures currently held in ARIS and their equivalent structures in the XML Schema has shown a number of discrepancies. RMDS intend to make corrections to ARIS to ensure that it is consistent with the Schema.*

**Scope of Change Request**

Correction to Documentation	Business Process	Market & MP Systems	MPCC	Readings Processor	Market Gateway	Schema	Web Forms
<b>X</b>							

**Identification of Baseline Products Impacted**

*ARIS Market Message structures*

**Description of Trading & Settlement Code Impact (if any)**

--

**PART 2 MARKET ASSURANCE:**

**Applicability**

ESB Networks	Suppliers	TSO	SMO	Generators

**Scope of Test**

Connectivity	DTT	MSA	IPT	Other
			No. Of Scenarios	

<b>Date of issue of Change Request</b>	
<b>Date response is required</b>	

**PART 3 RESPONSES AND MODIFICATIONS:**

**Collation of Impact Assessment (from Form C)**

*Not Applicable*

**Modifications Included**

*Not Applicable*

**Reason for Modifications**

*Not Applicable*

**PART 4 ASSESSMENT & RECOMMENDATION:**

<b>Part 4(a) ASSESSMENT</b>
<b>Summary of Impact Assessment</b>
<b>Recommendation on Implementation Plan</b>

<b>Part 4(b) RECOMMENDATION</b>			
<b>ACCEPTANCE</b>	<b>REJECTION</b>	<b>NO RECOMMENDATION</b>	<b>COMMENT</b>
<b>Reason for Recommendation</b>
