**PART 1 CHANGE REQUEST:**

<b>Name of Requesting Organisation</b>	ESB Networks AIP / RMDS		
<b>Contact name</b>	Theresa O'Neill		
<b>Date Change Request Raised</b>	26/10/2006	<b>Originating Discussion Request</b>	
		<b>DR</b>	'Impact of AIP on ROI Retail Market', Draft Ver 0.41

**Detail of Change Request**

In order to introduce the Single Electricity Market there are a number of changes required to the existing Retail Market processes. This MCR relates to the Market Process surrounding Supplier of Last Resort.

The reason for the change is that where a Change of Supplier occurs on a Trading Site MRSO is required to inform the SMO of it's occurrence. As such, a reversion to Supplier of Last Resort for a Trading Site carries the same requirement.

A placeholder has also been introduced to cover the Supplier of Last Resort for Non Participant Generator Export.

These changes will be reflected in the relevant market baseline products.

Detailed changes for process MPD 4 – Revert to Supplier of Last Resort:-

Functions and events will be amended or added as necessary to process MPD 4.

### 3. Supplementary Information

#### Supplier of Last Resort Instructions

The Supplier of Last Resort need not provide a registration request to MRSO.

#### Alternative Supplier Instructions

An alternative Supplier should provide a registration request to MRSO using the appropriate interface by using message 010. The use of a scheduled read should not be requested.

The alternative Supplier may provide a customer read using the message 210 or 010.

#### **Non Participant Generator Export**

*This section is being added as a placeholder pending further discussions regarding the treatment of Supplier of Last Resort for the Export Arrangements on a Non Participant Generator.*
