

Market Change Request

Number		Title	Priority
MCR	0122	New Participant Registration Working Practice 0015	HIGH

Date	Version	Reason For Change
26/10/2006	1.0	Draft for IGG Review
15/11/2006	1.1	As detailed in "Responses to AIP MCR Comments". Ref. 4, 82

PART 1 CHANGE REQUEST:

Name of Requesting Organisation	ESB Networks AIP / RMDS		
Contact name	Theresa O'Neill		
Date Change Request Raised	26/10/2006	Originating Discussion Request	
		DR	'Impact of AIP on ROI Retail Market', Draft Ver 0.41'

Detail of Change Request

The retail market has existing data definitions and values for the Supplier ID and Generator Market Participant IDs however the Single Electricity Market is introducing different definitions and values. This Working Practice will document the manual process where MRSO will receive information regarding a new Supplier of Generator within the Wholesale Market and create a parallel ID for use within the Retail Market.

Detailed changes to WP 0015 New Participant Registration:-

These changes are described below (from page 4), containing:-

1. WP 0015 New Participant Registration

A mapping table will also be created within MRSO systems to enable MRSO to send market messages within the Retail Market using the Retail Market Participant IDs.

Reason for Change Request

Introduction of the Single Electricity Market.

Scope of Change Request

Correction to Documentation	Business Process	Market & MP Systems	MPCC	Readings Processor	Market Gateway	Schema	Web Forms
▼	-----	-----	-----	-----	-----	-----	-----

Deleted: Y¶
Formatted: Don't adjust space between Latin and Asian text, Don't adjust space between Asian text and numbers

Identification of Baseline Products Impacted

1. WP 0015 New Participant Registration

Description of Trading & Settlement Code Impact (if any)

PART 2 MARKET ASSURANCE:

Applicability

ESB Networks	Suppliers	TSO	SMO	Generators

Scope of Test

Connectivity	DTT	MSA	IPT	Other
			No. Of Scenarios	

Date of issue of Change Request	
Date response is required	

PART 3 RESPONSES AND MODIFICATIONS:

Collation of Impact Assessment (from Form C)

Identification of Retail Market Design Baseline Products Impacted

Reason for Working Practice
<p>The retail market has existing data definitions and values for the Supplier ID and Generator IDs however the Single Electricity is introducing different definitions and values. The consequences of this are as follows:</p> <p>Supplier ID</p> <p><u>Field length</u></p> <p>The ROI Retail Market has a 3 long data field containing the Supplier ID. In the SEM, the equivalent data field will be longer.</p> <p><u>Field Values</u></p> <p>The values of the Supplier IDs are changing in the SEM.</p> <ul style="list-style-type: none"> ■ The ROI Retail Market will retain the current Supplier IDs and put in place a mapping table to the new SEM Participant ID ■ For new Suppliers post go-live, the ROI Retail Market will allocate a 3 digit Supplier Identifier in the Sxx series for use in the ROI Retail Market <p>Generator ID</p> <p><u>Field length</u></p> <p>The ROI Retail Market has a 3 long data field containing the Generator ID. In the SEM, the equivalent data field will be longer.</p> <p><u>Field Values</u></p> <p>The values of the Generator IDs are changing in the SEM.</p> <ul style="list-style-type: none"> ■ the proposal is to retain in the ROI Retail Market the current Generator IDs and to put in place a mapping table to the new SEM Participant ID ■ For new Generators post go-live, the ROI Retail Market will allocate a 3 digit Generator Identifier in the Gxx series for use in the ROI Retail Market

Working Practice

Whenever the SMO notifies MRSO of a new Supplier or Generator ID the following process will be followed.

Supplier ID

Can be triggered by the receipt of Wholesale Market Registration information from the SMO.

Assuming the Supplier has undertaken and passed the relevant Market Assurance Testing this trigger will result in MRSO:

- Assigning a 3 digit SXX Supplier ID for the Retail Market
- Updating the mapping into systems
- Contacting the Supplier to confirm the new value for use in the Retail Market
- Contacting the TSO to confirm the new value for use in the Retail Market

Note: these communications will be via manual emails.

Generator ID

Can be triggered by the receipt of Wholesale Market Registration information from the SMO.

Assuming the Generator has undertaken and passed the relevant Market Assurance Testing this trigger will result in MRSO:

- Assigning a 3 digit Generator ID for the Retail Market
- Updating the mapping into systems
- Contacting the Generator to confirm the new value for use in the Retail Market
- Contacting the TSO to confirm the new value for use in the Retail Market

Note: these communications will be via manual emails.
